FRINTON AND WALTON URBAN DISTRICT COUNCIL

Telephone:
Frinton 582.

Public Health Department,
The Council House,
Frinton-on-Sea.

May 1961

To the Chairman and Members of the
Frinton and Walton Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting the Annual Report on the state of Public Health in the Urban District of Frinton and Walton for 1960, a year that will be remembered for its heavy rainfall.

The health of the community remained at a high level, only seventeen cases of infectious diseases being notified. No poliomyelitis appeared in the district during the year and it seems that the mass immunisation of the population has certainly limited this disease. The outbreak of diphtheria in parts of the Country is viewed with concern and has caused many parents who had previously neglected having their children immunised, to take advantage of the facilities offered them.

The district continues to grow quite rapidly. The speculative development which is occurring at the present will obviously increase the population, and a comparison of this year's mid-year population with that of last year gives a conservative indication of the growth.

Last year, I drew the Council's attention to the need for an additional Public Health Officer. I am pleased to say that a suitable applicant is now being sought. The heavy burden which has fallen upon your Public Health Inspector, who is also your Housing Officer and Cleansing Officer will then be lightened.

In conclusion I must refer to my departure from the district in the near future, and in doing so I would like to thank the members of the Council for their support and in particular the Public Health Committee for their co-operation and sense of humour. Finally to the Public Health Inspector and Chief Officers of the Council I extend my gratitude for their friendship and help during my five years as your Medical Officer of Health.

I am,

Your Obedient Servant,
R. D. PEARCE,
Medical Officer of Health.

STATISTICAL MEMORANDUM

Urban District of	...	Frinton and Walton
Area in acres	...	6,293
Population:		
1951 Census	...	8,448
1960 Registrar General's estimate		9,470
Density of estimated population per acre		1.75
Rateable value	...	£171,759
Sum represented by a penny rate	...	£692
Number of inhabited houses (estimate)	...	3,900
Total live births	...	86

Infant mortality rate - legitimate	...	37.9
Infant mortality rate - illegitimate	...	-
Neo-natal mortality rate	...	23.2
Early neo-natal mortality rate	...	23.2
Perinatal mortality rate	...	45.4
Deaths from diarrhoea (under 2 years of age)		-
Maternal deaths	...	-
Maternal mortality rate	...	-
Cancer deaths	...	32
Tuberculosis deaths	...	1

VITAL STATISTICS

The Registrar General's estimate of the mid year population is increased by 260.

There were 18 fewer births in the district, with a corresponding fall in the birth rate, which was much below the National average.

The infant mortality rate of 34.9 remains higher than the National figure of 21.7.

The death rate is much the same as in the previous year.

LIVE BIRTHS DURING 1960

REPORT OF THE PUBLIC HEALTH INSPECTOR
ON THE SANITARY CIRCUMSTANCES OF THE AREA

WATER SUPPLY

Practically the whole of the water supplied to the Urban District was obtained from the Dedham Pumping Station of the Tendring Hundred Waterworks Company, with some assistance from the Company's subsidiary sources at Lawford during the summer peak period.

The quantity of water supplied to the Frinton and Walton district in the 12 months ended 31st. December, 1960, amounted to 190.859 million gallons, an average daily consumption of 0.522 million gallons, with a peak of 0.749 million gallons per day.

The total quantity taken for domestic purposes during the year was 158.935 million gallons, an average daily consumption of 0.434 million gallons. The total amount taken through trade meters was 31.924 million gallons, an average daily consumption of 0.087 million gallons.

The total number of connections (domestic and trade) made in the year to the Company's mains in the Urban District, amounted to 189.

Approximately 1,306 yards of new mains of 3", 4", and 6" diameter have been laid in the Frinton and Walton district during the year; also 21 yards of 3" diameter main have been relaid in Church Road, Great Holland.

The Kirby-le-Soken Water Supply, which supplies a few cottages with water for domestic purposes, was satisfactory in quality and quantity. Five samples were examined during the year. The source of the supply is an underground stream, piped from a collecting point to seven standpipes in the main street of the Village.

Private well water supplies, of which there are a few in the rural areas of Great Holland and Kirby-le-Soken, are kept under observation and the water sampled from time to time.

The approximate number of dwellings-houses supplied by public water mains is:-

		Houses	Population (est.)
A.	Direct to houses	3,600	9,300
B.	Standpipes	100	300

SANITARY ADMINISTRATION

The following is a synopsis of the principal work carried out by the Public Health Inspector during 1960:-

Inspections (Public Health and Housing Acts)	750
Other Inspections	380
Informal Notices served	124
Informal Notices complied with	119
Formal Notices served	7
Formal Notices complied with	7

The following are the Principal Improvements obtained:-

HOUSING

Roofs repaired	...	9
Gutters and spouting, repaired or renewed		2
Chimney stacks repaired	...	1
Walls damp-proofed	...	5
Floors repaired	...	7
Sub-floor ventilation provided or improved		3
Wall and ceiling plaster repaired		16
Ceilings renewed	...	4
Windows repaired	...	4
Windows, new provided	...	7
Kitchen sinks provided or renewed		3
Rooms cleansed and decorated		14
Larder ventilation provided	...	2
Wash-hand basins provided	...	3
Outbuildings cleansed	...	5

DRAINAGE

Drainage systems repaired or improved	17
Drainage systems renewed in part	12
Drainage systems cleansed	19
Drainage ditches cleansed and graded	6
Cesspits emptied and cleansed	70

CLOSETS

W. C. accommodation repaired	12
W. C. accommodation improved	9
W. C. accommodation cleansed and redecorated	12

YARD PAVING

Yard surface repaired	...	3
-----------------------	-----	---

DUSTBINS

Defective bins renewed	...	104
------------------------	-----	-----

NUISANCES

Animal nuisances abated	...	2
Insect nuisances abated	...	74
Rooms fumigated	...	7
Rubbish accumulations removed		7
Offensive accumulations removed		5

FOOD PREMISES

Kitchen reconditioned and improved	1
Premises redecorated throughout	9
Premises redecorated in part	7
Walls, ceilings and floors cleansed, number of premises	7
Ceiling and wallplaster repairs, number of premises	8
Improved food equipment provided, number of premises	5
Separate staff hand-washing basins provided	2
Modern food preparation tables provided	6
Impervious tops provided to food preparation tables	4
Automatic towel dispensers provided	4
Tile splash surrounds provided to sinks	4
Exhaust fans provided in kitchen	2
Miscellaneous improvements	21

COMPOST

During the year, some 18 tons of Compost were produced, and sold to local residents for £50. The material is made by mixing together vegetable and animal wastes, straw, some house refuse and sewage sludge, in three bays constructed for the purpose at the Kirby-le-Soken Sewage Works. All

mixing and turning operations are carried out by hand, and before sale the Compost is allowed to mature adequately, usually for three or four months dependent upon weather conditions. It is hoped to increase production year by year within the limits of available labour.

CLEAN AIR ACT, 1956.

A non-industrial area, the Urban District is almost entirely free of any form of air pollution. Only two factories in Walton-on-Naze could, in the absence of control, give rise to nuisance conditions. Modern dust and grit arresters have already been installed at the base of boiler chimneys at one of the factories, and similar action is being taken by the Management of the other factory following representations by the Council.

DRAINAGE

Brief particulars of drainage improvements are set out in Page 10.

RIVERS AND STREAM POLLUTION

No further action was required during the year under review, following the de-sludging and cleaning in 1959 of a watercourse known as Kirby Brook. The position will have to be watched however, as the effluent from already over-loaded Sewage Works at Kirby-le-Soken discharges into the watercourse.

ERADICATION OF BED BUGS

Number of Infested Houses:-

Council Houses	Nil
Other Houses	2

Number of Houses disinfested:-

Council Houses	Nil
Other Houses	2

VERMIN, MOTH, ETC.

Rooms and contents fumigated	17
Caravans and contents fumigated	7
Bedding, etc. steam disinfested	5 lots

MOSQUITO DESTRUCTION

Spraying of mass breeding areas with Larvicide is carried out at the appropriate season of the year. Larvicide is also made available to local residents, at a small charge, for the treatment of minor breeding areas on private land.

SHOPS ACT, 1950.

Inspections were made of shop premises from time to time in the matters of lighting and ventilation of rooms, temperature and staff sanitary and hand-washing facilities. Improvements were effected where necessary as a result of informal action. Plans of new shop premises, and of buildings to be converted to shops, are checked to ensure that adequate facilities are provided.

DISINFECTIONS

Rooms and contents fumigated	18
Caravans and contents fumigated	8
Bedding and clothing destroyed	7 lots
Library books disinfected	14

PORt SANITATION

No action was required under the Port Sanitary Regulations.

ESSEX COUNTY COUNCIL ACT, 1952 - HOUSEBOATS

The Council gave consent to the continued mooring during the year of 14 houseboats in and adjoining the Yacht Club Tidal Basin in Walton-on-Naze. Only two of the house-boats are used for permanent habitation.

PREVENTION OF DAMAGE BY PESTS ACT, 1949.

Visits by Public Health Inspector	63
Visits by Rodent Operator	998
Houses inspected	415
Houses treated	178
Other Premises inspected	58
Other Premises treated	12
Overgrown plots cleared	7
Sewer maintenance treatments	2

THE PESTS ACT, 1954.

A considerable increase in the rabbit population was observed during the year, and action was commenced to secure the disinfection of Council owned or controlled land, involving some 110 acres. Operations were commenced in November, 1960, by the North East Essex Rabbit Clearance Society, of which the Council is a Member.

CARAVAN SITES AND CAMPING

Seasonal caravan camping took place at 9 licensed Sites which provide for a total number of 1,681 caravans. Sanitary control of the Sites is secured by Licence Conditions. All are provided with modern sanitation and mains water supplies. During the year, additional sanitary blocks and waste water disposal points were provided at some of the Sites, and miscellaneous minor improvements carried out. Refuse is removed regularly and frequently by the Council's refuse vehicles, at the expense of site operators.

The Caravan Sites and Control of Development Act, 1960 came into operation on 29th August, 1960, and introduced a new licensing system for caravans. The Council are actively engaged in implementing the requirements of the Act, and preparing Licence Conditions based on the Model Standards specified.

SEWERAGE AND SEWAGE DISPOSAL

The reinstatement of the Walton-on-Naze Sea Outfall was commenced during the year and will be completed early in 1961.

On December, 20th, 1960 a local enquiry was held by an Inspector of the Ministry of Housing and Local Government into the Council's proposals for the Hall Lane and Churchfield Road main sewers.

The Council's Consulting Engineers were given instructions in connection with proposed Sewage Disposal Works at Walton-on-Naze and at Great Holland. It was decided that the Walton-on-Naze Works be designed for an ultimate population of 30,000.

Heavy rainfall at certain times of the year produced overloading in several sections of the sewerage systems.

HOUSING

INSPECTION

Total number of houses inspected for housing defects under Housing or Public Health Acts	141
--	-----

HOUSING ACTS

Number of Houses in respect of which demolition orders were made	Nil
Houses demolished	1
Number of Houses in respect of which closing orders were made	4
Houses closed	3
Undertakings not to re-let for human habitation	3
Houses rehabilitated on formal undertakings	4
Houses inspected for overcrowding or permitted numbers	11

REPAIRS

Unfit houses rendered fit and houses in which defects were remedied during the year as a result of INFORMAL ACTION under the Housing or Public Health Acts	63
--	----

INADEQUATELY HOUSED FAMILIES

Fifteen families were re-housed in Council houses during 1960. The number of applicants on the Waiting Lists at the end of the year was 50 for Council houses, and 32 for Council bungalows.

NEW HOUSES ERECTED DURING 1960

	Commenced	Completed
By the Council	2	Nil
By Private Enterprise	195	153

COUNCIL HOUSING SITES

Tenders have been received for the construction of six dwelling units, comprising flats and houses, on land in Thorpe Road, Kirby Cross, and building will be commenced when Ministerial approval has been given. Two bungalows (two bedroom) under construction in Second Avenue, Walton-on-Naze

should be completed by April, 1961.

Council houses erected since 1946:

146

IMPROVEMENT GRANTS

During the year, 10 Discretionary Grants, and 20 Standard Grants, were approved by the Council.

REQUISITIONED HOUSING ACCOMMODATION

There is no requisitioned housing accommodation in the area.

FOOD

FOOD PREMISES

The following summary shows the number of premises at which food for human consumption is sold or prepared for sale, and the number of visits paid.

Premises	Number	Inspections
Grocers and Provision Merchants	31	19
Restaurants	28	74
Hotels and Guest Houses	32	14
Seasonal Refreshment Kiosks	12	19
School Canteens	5	3
Workshop Canteen	1	1
Clubs, etc.	11	3
Butchers	11	91
Bakeries and Cake Shops	17	40
Wet Fish Shops	6	11
Fried Fish Shops	4	12
Dairy	1	3
Milk Shops	9	9
Food Hawkers Premises	2	2
Greengrocers and Fruiterers	12	8
Confectioners	20	8
Ice-Cream	59	31
	<hr/>	<hr/>
	261	348
	<hr/>	<hr/>

REGISTRATION OF FOOD PREPARATION PREMISES

The number of food premises registered with the Council under the Food and Drugs Act or the Essex County

Council Act is as follows:-

Ice-cream, sale	59
Shell-fish, preparation	1
Fried Fish Shops	4
Sausage and Preserved Meats, preparation	19

INSPECTION OF MEAT AND OTHER FOODS

In consultation with local butchers and organisations representing the meat trade, the Council reviewed the existing and probable future requirements of the District for slaughterhouse facilities, and concluded that present arrangements were satisfactory. A report to this effect was submitted to, and accepted by, the Minister of Agriculture, Fisheries and Food.

There are no slaughterhouses in the Urban District, the bulk of meat supplied to the area being obtained from wholesale suppliers. One retail purveyor arranges for live animals to be slaughtered in a private licensed slaughterhouse in an adjoining District.

Meat and foods, under preparation and exposed for sale, are inspected from time to time and as occasion arises. It was necessary during the year to condemn the following foodstuffs as unfit for consumption:-

Food	Weight in lbs.
Meat, tinned	104
Fish	30
Fish, tinned	10
Fruit, tinned	8

MILK SUPPLY

The milk supply to the area is obtained from local dairy farms and Dairy Companies having premises outside the District. The one registered dairy in Frinton-on-Sea is in good condition, and arrangements at the premises for bottle and plant washing and sterilization, and the pasteurization, handling and distribution of milk are satisfactory. There are twelve registered distributors of milk on the Register.

Six milk dealers were granted licences authorizing the use of the special designations Tuberculin Tested, Pasteurised and Sterilized in relation to milk sold locally.

ICE-CREAM

Pre-packed ice-cream only is sold in the area, under satisfactory conditions, by 59 vendors. There are no manufacturers of ice-cream in the District.

BAKEHOUSES

Bakehouses were inspected from time to time, and a number of improvements carried out to premises, plant and equipment following representations to managements. Seven bakehouses were in operation, the use of one other bakery having been discontinued.

FOOD HYGIENE

Similar advisory action on matters of hygiene in food premises was taken to that recorded in the Annual Report for 1959.

PUBLIC CLEANSING

REFUSE COLLECTION

Domestic refuse is collected weekly from all dwelling-houses, and trade refuse by agreement with managements of business premises. Special refuse collections are undertaken during the summer season from camping sites, hotels, restaurants and the larger boarding-houses. Modern rear-loading collection vehicles are in use.

It was necessary during the early part of the year to re-organise domestic refuse collection rounds, in order to provide for the considerable housing development taking place.

Income from all sources in respect of refuse collection, removal and disposal, amounted to £666.

REFUSE DISPOSAL

Refuse disposal is by controlled tipping on land at Malting's Lane, Kirby-le-Soken. Controlled tipping is also undertaken during the winter months on the Bath House Meadow, Walton-on-Naze, the purpose being to raise the level of the land for development as a Car Park and Recreation Ground.

Anti-rat and insect measures are regularly undertaken on all land in use for refuse disposal purposes.

Some 83 new sanitary dustbins were provided in replacement of defective bins at dwelling-houses, under the Council's Dustbins Scheme, which continues to operate satisfactorily. 29 new dustbins were otherwise provided.

SALVAGE

The weight and value of salvage collected and sold are given in the following summary:-

	Tons.	£.
Waste Paper	30 $\frac{3}{4}$	249
Metals, Textiles, Etc.	3 $\frac{1}{2}$	57
	—	—
	34 $\frac{1}{2}$	306
	—	—

STREET SCAVENGING

District roads totally 15.97 miles are regularly scavenged by a Lewin Mechanical Sweeping Machine, and by hand sweeping. The more important roads are swept daily. By arrangement with the County Council the cleansing of 12.32 miles of classified roads is also undertaken by the Council. Street gullies are cleansed regularly by mechanical means under contract.

Two trailer gritting machines are available for the gritting of roads in frosty or icy conditions. The Council possesses a snow plough for use with a tractor when required, and can also fix a blade to a motor scythe for clearing footways of snow. Arrangements have been made with several farmers to assist with clearing main roads following heavy snowfall.

PUBLIC CONVENIENCES

Schemes are in course of preparation for major alterations and additions to conveniences facing the Pier at Walton-on-Naze, and to those on the Southcliff Promenade. Approval has been given to the carrying out of extensions to the Eastcliffe Conveniences in Walton-on-Naze and the Kiosk Field Conveniences, Frinton-on-Sea.

SUNSHINE AND RAINFALL RECORDS

Readings were taken at the Meteorological Station, Walton-on-Naze, and transmitted to the Air Ministry.

Difficulties were experienced towards the end of the year because of the serious illness of the Observer.

The total number of hours of sunshine was 1,545, with June producing the highest monthly total of 257 hours. Rainfall was exceptionally high, and the total for the year was 26.92 inches with October producing the highest figure of 6.22 inches. There were 72 sunless days and 176 rainless days during the year.

FACTORIES ACTS, 1937 and 1948
